

Follow-Up Homework from Lisa Bass

Here are Lisa Bass's intended outcomes for this homework – what she would *Like To See*:

- Participants build a logic model for a program or strategy in which they are involved
- Participants identify evaluation questions for a program or strategy in which they are involved
- Participants articulate potential use of evaluation information for a program or strategy in which they are involved

Her follow-up homework for you, now that you've attended her evaluation session, is

- 1) Build a logic model for a program or strategy in which you are involved
- 2) Identify evaluation questions for a program or strategy in which you are involved
- 3) Articulate potential use of evaluation information for a program or strategy in which you are involved
